

### COUNCIL HAS VARIATION AT ITS MEETING

**Waited on By Ratepayers--  
Date of Tax Sale Changed--  
Labor Men Get Grant  
For Sports on Labor Day**

With the mayor in the chair and a full council present, the regular meeting last Monday night the proceedings were somewhat livelier than usual. Variety was given to the usual routine work by the appearance of several delegations to interview the council.

After the reading and adoption of the minutes Mrs. Gibbs waited on the council and complained about calves belonging to Mr. Crooks being run over and that when he was spoken to about them he called her some very nasty names.

Councillors Lavelle and Broughall said that if this were true they would not stand for retaining Mr. Crooks as a town official for one minute.

Mr. Crooks was present and denied having used the language stated by Mrs. Gibbs.

The council decided to investigate at once and made arrangements to have all concerned appear before the council at the conclusion of the meeting.

Owing to some delays in the necessary arrangements for holding the tax sale, the date of sale was changed from July 27th to August 1st.

The committee reported that 10 horses had been arranged for the pound-keeper and could be secured at 100 per month. It was decided to secure this horse at that figure.

An Councillor Howard's term as deputy mayor had expired he was re-appointed for the coming three months.

A. Leamouth waited on the council as representative of the Trades and Labor council and stated that it was the intention to hold a demonstration in Redcliff on Labor Day provided they could get the necessary financial support from the council.

Mr. A. W. Woodcock reported on the council and asked that the west half of S. W. 1/4 of section 36 be relieved from residential restriction, as this property was isolated from the rest of the town. The matter was referred to the Board of Health.

Council then took up question as introduced by Mr. Leamouth and it was moved by Councillor Broughall seconded by Councillor Lavelle that the local Labor Day Sports Committee be given a grant of \$100 for their sports on Labor Day.

Councillor Lavelle informed the council that he had complaints from residents between Eighth and Tenth avenues regarding the water mains in that district. He thought this should be fixed up if possible as it is now a nuisance.

Mr. Moore, engineer at the pumping station, was present and asked how the council was progressing in its effort to secure a house for him and the assistant at the "pumping" plant. He explained that the water meters were unobtainable, especially in wet weather. The matter was referred back to the committee in charge of the water meters.

Some business as passed by the Finance Committee was read and ordered paid.

Council then adjourned to meet as a committee of the whole on Monday.

After the adjournment the council met as a committee of the whole to go more thoroughly into the complaints made by Mrs. Gibbs.

Use Machine Guns  
On Sinn Feiners

Machine guns were used on the Sinn Feiners in the streets of Cork last Sunday. They were brought into action after the police with clubs had failed to restore order. The soldiers opened various positions while the police chased the rioters to side streets. After having been in the main streets, the police were then fired on by the Sinn Feiners. One rioter was killed and another severely wounded, while a dozen were taken to hospitals for lacerated and other wounds. The riot was eventually quelled without the troops coming into action.

### Big Increase in Business in C. P. R.

Another evidence of the rapidly increasing business in Redcliff was brought to the attention of the town council when we were informed that the business done by the C. P. R. waited at this point shows a marked increase this year over last.

The company's earnings in the freight department show an increase of over \$35,000 for May last compared with May, 1916. Of this the increase in outgoing and incoming freight is about equal.

The same month also shows that the business in express, packages and tickets is just about double this year what it was last.

These figures are fairly good barometers and are proof of the gradually improving conditions in this town and district.

### Crop Conditions Are Good in the West

Special crop news gathered from a large number of correspondents shows that taking the west as a whole, the crop outlook is very satisfactory and promises to be a bumper year.

What is everywhere reported to be a strong stand with, and average weather from now on, should be something better than an average crop.

Northern Manitoba, most of Saskatchewan and Alberta province as a whole, show a bumper crop of grain.

Some districts of Manitoba in the south and center have been hit by drought, but the rest of the province and warm fertile world war a wonderful transformation in them.

The crop of hay in the west will be light, but wheat and grain stock are generally backward, but have time to give satisfactory returns with normal summer weather.

### May Mean Total Prohibition in U. S.

The administration food control bill of the United States, giving the federal government authority to control the distribution of food, feed and fuel for war purposes, and appropriating \$10,000,000 for the enforcement and administration, was passed by the house after far-reaching prohibition provisions had been written into it.

The vote was 395 to 8.

Prohibition provisions adopted would give of foodstuffs for manufacture of alcoholic beverages, and would give the president authority to take over for war purposes all liquor now on hand. The bill now goes to the senate, where it probably will be substituted for a similar measure at the end of the session.

Mr. Leamouth waited on the council as representative of the Trades and Labor council and stated that it was the intention to hold a demonstration in Redcliff on Labor Day provided they could get the necessary financial support from the council.

Mr. A. W. Woodcock reported on the council and asked that the west half of S. W. 1/4 of section 36 be relieved from residential restriction, as this property was isolated from the rest of the town. The matter was referred to the Board of Health.

Council then took up question as introduced by Mr. Leamouth and it was moved by Councillor Broughall seconded by Councillor Lavelle that the local Labor Day Sports Committee be given a grant of \$100 for their sports on Labor Day.

Councillor Lavelle informed the council that he had complaints from residents between Eighth and Tenth avenues regarding the water mains in that district. He thought this should be fixed up if possible as it is now a nuisance.

Mr. Moore, engineer at the pumping station, was present and asked how the council was progressing in its effort to secure a house for him and the assistant at the "pumping" plant. He explained that the water meters were unobtainable, especially in wet weather. The matter was referred back to the committee in charge of the water meters.

Some business as passed by the Finance Committee was read and ordered paid.

Council then adjourned to meet as a committee of the whole on Monday.

### LABOR MEN WILL CELEBRATE IN REDCLIFF ON NEXT LABOR DAY

**This Will be Meeting Place For The  
District--Trades and Labor Council  
of Medicine Hat to Co-operate--  
Will Have Good Program of Sports**

The preliminary arrangements for holding a big sports day in Redcliff on Labor Day are now completed and will promise to be the event of the season is now assured.

The first Monday in September is annually observed throughout Canada as the day set apart especially for the labor unions of the country and this year the different districts have been successful in having Redcliff chosen as the meeting place for this district.

In this they have the cooperation of the Trades and Labor Council of Medicine Hat and the

organization has not only promised to be present in force but will lend every assistance in making the day a success.

Those interested in the event are already busy arranging for a special program and they are to be the day of athletic sports and a basketball and football tournament and it is expected there will be arrangements made for a number of saddle horse events.

There are no other dates for Labor Day but are sure to come with the crowd in Redcliff.

### Donald MacLachlan Is New Trustee

The election of a trustee for this school district passed off very quietly last Monday. This was the day for nominations but as Donald MacLachlan, a local business man, was the only candidate nominated, he was elected without opposition.

Mr. MacLachlan is one of the pillars of the town and as he has always taken an keen interest in the town's affairs, he should make a good trustee.

### British in U. S. Are Recruiting

Brigadier General W. A. Whitehead of the British recruiting mission in New York City, declared this week he was more than satisfied with the result of the first week's recruiting among British subjects in the United States.

The first batch of recruits left Monday for Canada. They are both British and Canadian, the term British covering legal subjects of Australia, New Zealand and other British colonies. The men will go into intensive training at once and will be sent overseas early from the Canadian camps.

General Whitehead stamped as erroneous the rumor that the recruiting mission was working on an arrangement whereby British subjects might be entitled to enlist in the American navy. The mission, he said, is here to enlist British and Canadian subjects for the British army, and not to hunt "slackers."

### U. S. Red Cross Fund Over-Subscribed

Collection of Red Cross war fund subscriptions obtained in the week's campaign which closed last Monday night, began throughout the United States with indications that the amount would exceed the \$100,000,000 goal by at least several million dollars.

Headquarters tabulations showed a total of \$100,000,000, with some cities yet unreported. This included \$10,000,000 from New York.

### British and Huns Meet in the Air

Three British naval airplanes fought 16 minutes with 10 German fighters over the English coast on Monday. An official account of the fight says one German machine was driven down in flames, and that two others are believed to have been brought down, but clouds interrupted the view. In the British machine returned safely.

### New Time Table For Summer Trains

The new C. P. R. schedule for the summer went into effect on the morning last Sunday and we there is a slight difference in the time train pass this point. There is very little change in the west trains but the evening train going east is about two hours longer than the following is the present schedule:

GOING EAST, . . . . .  
No. 14--St. Paul to Seattle train is a flag and goes through here at 4:10 a. m.  
No. 1--Toronto Express, 12:30 p. m.  
GOING WEST, . . . . .  
No. 15--Seattle to St. Paul train is a flag and goes through here at 7:50 and west at 2:35 but does not stop here.

### Kaiser Will Lose His Alberta Property

It will be remembered that some time ago a German named Von Alvensleben, had large sums of money invested in British Columbia, Alberta and mineral lands. At the outbreak of war he proceeded to transfer all his holdings so as to save his money from being seized as the property of an alien enemy. It has been proven that Alvensleben was an agent of the Kaiser and the property was eventually forfeited.

The part of the title which has not yet been sold to him as well as even his property in British Columbia, Alvensleben had large holdings in Alberta. At the same time that he made the transfers in British Columbia, he sent to the Edmonton land titles office a whole batch of transfers from himself to Dr. Dornberg, the registrar, William Hanley, now at the front, put the matter up to the attorney-general of Alberta, and the transfers were stopped, Monday they are in the records with a registrar's note against them as being stolen from Canada. The province of Alberta, in the final, will give all of the property the Kaiser bought in this province.

### Liberals Win Out In Saskatchewan

In the general provincial election held in the province last Tuesday the Liberal government, under the leadership of W. M. Martin was returned to power.

At present it looks as though the standing in the new legislature will be not a slight change in the standing of the Liberals. With some few exceptions in doubt, the government has 47 and the opposition now has 23. The Liberal government has 23 seats to be filled by addition overseas. This brings the total to 62.

The old legislature contained 66 seats of Liberals and Conservatives. Although there were in all 17 independent and non-partisan league members in the field but not one seems to have been elected.

### Movement of Towns Help Belgium Children

The announcement in our last issue to the effect that the wives of the town would meet at the home of Mrs. W. J. Fairbank, yesterday afternoon at 2 p. m. for the purpose of collecting clothing for the unfortunate Belgian children, attracted a large crowd of ladies and a most enthusiastic meeting was held.

After going carefully into the matter and reading several letters from officials in Belgium appealing for help, it was decided to meet every effort to collect suitable goods to make a shipment. A committee was then appointed to look after work.

The committee was: Mrs. Lavelle, Mrs. Wheeler, Mrs. Fairbank, Mrs. Plaut and Mrs. Stone.

The ladies in charge have called to announce that they will be at the Red Cross rooms next Wednesday afternoon for the purpose of receiving boys and girls clothing of all kinds.

The only stipulation is that they be clean, and it is only reasonable to expect that they had breaks in them be mended. The committee will also be pleased to receive money or material to make new clothing from any who have no cash or children's clothing to give. Those who would like to assist in making new goods handed in are also asked to call at the Red Cross rooms next Wednesday when it is hoped the material will be there for them.

### Two More Liberals Favor Conscription

Several more speeches, the majority in favor of the military service bill, were delivered in the commonsense way, bringing the division on the second reading that much nearer. The division was 70 to 30.

The features of yesterday's sittings were speeches by Co. Arthur of Ferry Sound, who has been at the front recently; Dr. Michael Clark of Red Deer, who has been at the front recently; Dr. Michael Clark of Red Deer, who has been at the front recently; Dr. Michael Clark of Red Deer, who has been at the front recently.

### BOX SPRINGS IS READY FOR DOMINION DAY

**Good Program of Sports  
Arranged--Will Be Young  
Stampede--Dance to Be  
Held in Evening.**

We are informed by members of the Box Springs C. P. R. association that everything is now in good shape for their annual picnic to be held on the old picnic grounds on Monday, July 2nd.

Judging from reports that who attend will be treated to a regular time stampede with all the necessary attractions. Greater interest than ever before is expected to be shown in the horse races and each event will see many of the old time rivals on the track.

The day is to be a grand one for the occasion. All kinds of prizes will be offered for the best of the day. The day is to be a grand one for the occasion. All kinds of prizes will be offered for the best of the day.

## PAY YOUR TAXES.

Next Saturday will be the last day on which the rebate of ten per cent. will be given on this year's taxes. For the convenience of those who wish to take advantage of this the town clerk will be in his office all Saturday afternoon.

There are two good reasons why everyone who possibly can should take advantage of this rebate. The first is one which should appeal to every taxpayer directly and personally. It is because it saves him money and, as we said before, in these times especially, the old saying that a dollar saved is a dollar made should not be left slighted. Taxes must be paid sometime. Then why not pay at a time when you get a rebate instead of waiting until penalties are added. The second is that the town needs the money in order to carry on the work of the municipality successfully and economically. At the present time the officials are considerably handicapped in their necessary improvements and developments because of the delinquency in this respect in years gone by.

The town has now arrived at the stage where it must undertake some improvements in its working machinery if it is to keep pace with the developments within its borders and place itself in a position to successfully compete with other towns now making a bid for industrial expansion. One of the best ways of assisting in making this possible is the prompt payment of all taxes.

## C. P. R.'S OVERSIGHT.

Those who have occasion to use the waiting room at the C. P. R. station here have drawn our attention to what looks to us like a very bad oversight on the part of C. P. R. officials. We were surprised to learn that although the station here is within a few feet of securing the very best drinking water in western Canada, not a drop of drinking water is available in the waiting room, specially to those who find it necessary to travel with children this surely is a source of great inconvenience.

In view of the fact that the C. P. R.'s earnings are increasing by leaps and bounds at this point surely it is only reasonable for us to expect that the company should spend a little of these earnings to give their patrons some modern conveniences.

If the station were situated on the bald prairie, miles from a source of supply, there might be some excuse for the present condition. But it is not. The town's main, full of what is recognized as the best drinking water in the west, parallels the company's property on Second avenue and it would only be a matter of spending part of the profits on one car of freight to make the necessary connections.

This is a matter which should be brought to the attention of C. P. R. officials, as the hot, water drinking season, is now upon us.

A few short months ago Henry Ford was trying to end the war by getting the boys out of the trenches. Now he is using all his influence and energy trying to get the boys into the trenches with the same end in view.

## MORE WHEAT.

The Review is in receipt of a letter this week from A. C. Rutherford, director of national services asking us to urge upon the farmers of our district the necessity of preparing now for increased crop acreage in 1918. Among other things he recommends breaking and preparing every possible acre of land before harvest and paying special attention to summer fallow. The writer also reminds us again that the duty of Canada to the Empire and her Allies is to produce wheat—and still more wheat. He also suggests that the secretaries of U. F. A. local and all other organizations, call meetings and urge upon the farmers the necessity of greatly increased production in 1918.

## FOR BELGIAN CHILDREN.

As the ladies of the town intend making an effort to secure children's clothing to be forwarded to the unfortunate youngsters of Belgium we would especially draw this matter to the attention of our readers.

That this is a most important duty for those of us who are more fortunately situated, to perform, none will deny. Those who read know that the unfortunate Belgian people are in a dire and pitiable plight, and are doubly deserving of all the help and assistance we can give them. There is probably not a house in town but has some children's clothing which has been outgrown and which is being stored away "where moth and rust doth corrupt." Let us all then get into the attic and old boxes and pick out the best and cleanest and patch them to fit the use of these children.

This is a matter in which parents should get their own children interested. The boys and girls can do much to help in this work and in the doing of it they can be taught lessons of self-sacrifice, love and duty.

Redcliff people have responded cheerfully and liberally to all calls made upon them in the past, but worthy as have been these calls upon us, none have been more deserving of our hearty and earnest support than this one.

According to reports the cats in town are creating havoc among the young chickens. Since there is no license for keeping cats, and since they have not yet appeared on the war time list of fare, we know of no law against using a 22 calibre rifle on these pests. Those who prefer cats to chickens might take enough interest in them to keep them housed up at night. Evidently that pet coyote has taught the cats some bad habits.

The Calgary, Alberta is about right when it says: "The suggestion that there should be another big drive for recruits by the old method before imposing conscription will not do. The time for that is past. In the provinces which yield to recruiting talk there are no men, and in the provinces where there are men, they do not yield to recruiting eloquence."

Those who have pork to sell by the carcass tell us that when they call on the butcher to take care of it the best price they are offered is 3c a pound. When the consumer buys pork by the pound over the counter he pays 25c and 30c a pound. Yes, it's about time a food controller was appointed.

A Berlin newspaper says the United States can be of no help to the Allies until 1918. This paper has evidently not heard yet that part of the United States fleet is already operating dangerously near German headquarters, or that General Pershing is now in France.

"That the public and the consumer will get a dividend out of government measures for food control there is no shadow of doubt," said Hon. Mr. Hanna, the new food controller for Canada. "We hope he means what he says. He surely is starting out on the right track."

## CHURCH NOTICES.

**CHURCH OF ENGLAND.**  
Friday—Choir practice, at 8 p. m.  
Sunday—Matins and holy communion at 11. Sunday school 2:30. Evening 7:30. Rev. A. B. Burgess will conduct the services.  
Thursday—W. A. in Parish hall at 2:30.

## Empress Theatre

Program for the week commencing Saturday, June 30th. Saturday, Blue Bird Day.

"THE PIPERS' PRICE"  
Featuring Dorothy Phillips and Maud George.

MONDAY, JULY 2ND  
I have made arrangements with the Rega Film Co. for a service of the world's famous Brady-made pictures. Something "entirely new" in the west.

TUESDAY, JULY 3RD  
We shall have the all Star Red Feather Features.

WEDNESDAY, JULY 4TH  
(Don't Forget the Date.)  
By working in conjunction with the DREAMLAND, Medicine Hat, I have been able to secure for Redcliff picture films, the Great Fox Features, now the rage in all the large theatres both in America and in Canada.  
Don't Miss These Pictures.

THURSDAY, JULY 5TH  
We are to have one of the best night programs the Universal supply.

A. OAKLAND, Prop.

## NOTICE!

In the matter of the Court of Confirmation of the Tax Enforcement Return of the Town of Redcliff.

Take notice that His Honor Judge Greene, Judge of the District Court of the District of Medicine Hat, in the 6th day of July, 1917, confirm the Tax Enforcement Return of the Town of Redcliff at 11 o'clock A. M. in the Town Hall, Redcliff.

Dated at Redcliff this 16th day of April, 1917.

F. H. COURTNEILL,  
Secretary-Treasurer,  
Town of Redcliff, Alberta.

Huns Still Deporting  
The Belgian People

Belgians in the districts occupied by Germany, especially those who are thought to be German, are being deported to Germany, or to the German-occupied territories. The Belgian authorities (the Germans) are not to be trusted. They are only playing on words when they assert "deportation of workers to Germany has ceased."

Though this may occasionally be the case, deportations of Northern French points and behind the front, for work on roads, railways and fortifications, continue, the statement adds, and persons promised and ready for repatriation are even being re-deported. The deportations, the Belgian government says, are proceeding without any consideration for occupation, health, age or even illness.

Crisis Looms Up  
In Great Britain

Britain seems nearer to a government crisis at this time than at any time since the Asquith ministry fell, though the whole thing may soon assume its proper proportions as a contest in a test of the strength of the main sources of disturbances of the usually serene British mind—the air raid on London and the appointment of Lord Northcliffe as commissioner of America. Neither matter is of primary importance, but both are extremely troubling to a large section of the public, and all sections of the public with cherished grievances take advantage of the occasion to throw into the balance against the government.

U. S. Making Good  
Progress for War

More than half a million war materiel have been shipped to the American people in less than three months. Between 700,000 and 800,000 are enrolled and most of them are trained, equipped and under training. They will be joined at the end of the summer by nearly 1,000,000 men from the military reserves registered June 8.

The regular army is reaching 400,000 mark and the war department officials, backed by the press, are trying to bring it up to 500,000 this week. The National Guard numbers nearly 200,000, nearly 75,000 actually under arms, guarding against German plots in its thorough way, as shown by the trivial damage the plotters have been able to inflict.

The regular bluejacket force of the navy, who already are trying their mettle against the enemy in the waters of the Irish coast under Vice Admiral Sims, or upon arrival of American freighters, has been raised from less than 60,000 to 120,000.

Fuel Director's  
Duties Are Defined

The order-in-council defining the duties and powers of W. H. Armstrong, of Vancouver, recently appointed director of coal operations for the mines in southwestern British Columbia and southwestern Alberta was laid upon the table in the commons. The director of coal operations is in the first place required to make enquiries respecting wages, hours of labor and other labor matters affecting the cost of production of coal and coke and the resumption of such production during the war and for three months after the cessation of hostilities. Owners, agents and managers of mines and coke plants in the district are required to comply with the orders and directives of the director with regard to the subject mentioned and "generally in connection with the management, operation and use of the mines and of the coke plants." Any who fail to do so will be deemed guilty of an offense.

## Protection of Crops

Crop protection means crop production. Canada loses over an hundred million dollars worth of her staple crops every year through the depredations of insect pests. A large portion of this loss could be prevented. As we cannot afford to lose the smallest portion of our grain and other food crops during the present critical period when the production of food is of supreme importance, the Dominion Department of Agriculture is making every effort to prevent, so far as possible, losses due to insect pests. Crop protection must go hand in hand with crop production.

Insect pests are not usually noticed or reported until they have caused considerable damage. Therefore it is urged that the farmer, who is responsible for the first appearance of any insect pest or damage. Immediately such damage is observed steps should be taken to control the outbreak in its incipient stage. If the pest or the method of control is unknown specimens of the insect and the damage should be sent at once to the nearest of the following sources of expert assistance: The Agricultural College, the Provincial Department of Agriculture or their local district representatives, the officer in charge of the nearest Dominion Entomological Station, or direct to the Dominion Entomologist, Department of Agriculture, Ottawa, for examination. Advice in regard to the most effective measures will be furnished without delay. Letters and packages up to 11 ounces in weight may be mailed to the Dominion Entomologist. "Free" postage will be required on letters or specimens sent to the other sources of advice mentioned.

Do not delay reporting insect outbreaks or sending inquiries; delay may involve serious losses that could otherwise be prevented. Write, immediately, or telegraph if the outbreak is serious.

## Increased Freight

## Rate Is War Measure

The rising tension in the west of the board of railway commissioners was held in Winnipeg on Saturday afternoon, and Sir Henry Dreyfus says his fellow-commissioners last night for Ottawa.

Mr. Philbo, delegate to the provincial government to represent the interests of the grain growers, has proposed a per cent increase in freight rates, said: "In order to give the Canadian Northwest some relief from the additional expense of approximately \$1,000,000, we are asked to give the C. P. R. a per cent of \$1,000,000. This is a rate that the west was paying less than its share of the railway tariff now."

Sir Henry Dreyfus pointed out that the increase, if made, would be under the War Measures Act, and therefore only for a limited time.

## Says Roosters Are Unnecessary Expense

The worker here put their house in order by killing off all the male birds as soon as their services are no longer required. What a great benefit it would be to the poultry producer and the poultry product consumer if the house of the flock would likewise dispose of the male birds in those flocks that are indifferently managed. The worker permits no bantam to roam around and waste the grain of her labor. The hen is not like the cock in asserting her rights. If she were, then her verdict would be: "Rooster you must die!"

There are over two million free-roaming thousand posters of the various breeds of chickens kept for breeding purposes by the people of the country. Of these many thousands one hundred and fifty thousand have a right to live for another year of service. One-out of the five composed of an ordinary rooster is about twenty cents per month. Can you afford it? If you have poultry with a few good roosters, you can afford to keep a few because for nine months and perhaps have one doing much of the work. The two million three hundred and fifty thousand, unnecessary male birds are costing the country about one and half million dollars per year while enjoying life. These unnecessary birds are at the same time doing about ten million dollars damage to the egg-producing business. If every person owning a rooster would manage him as a male bird should be managed on poultry industry, the country would be a better place and additional profits many millions of dollars.

## Reserve Rooms For Hat Stampede

The citizens of Medicine Hat are making every effort to take care of the people who attend the Stampede and Agricultural Exhibition. It is expected that on July 10th to 15th, intending visitors to the Hat for the event would do well to reserve their accommodations in advance. In order to reserve rooms, notify the Stampede secretary, G. W. McClafferty, Medicine Hat, of the date, time and mode (train, car, etc.) of your arrival and number of people in your party, giving number of women and children, if any. He will then state for which nights you will need rooms.

Rooms reserved for visitors arriving by train will be held half an hour after arrival of train. Rooms reserved for visitors coming by other modes of travel will be held until 8 p.m.

## Canadians Start Week With Gains

The Canadian soldiers are greatly benefiting in the line of 'f' in the center of the great coal deposits in the department of Pas de Calais, and from which prior to the war more than five million tons of coal were annually exported. Successful raids carried out Sunday night by the Canadian corps gave them 400 yards of trenches in the woods at the western outskirts of the city, while Monday's operations brought them further progress along both banks of the Somme river on a front of about a mile and a half south of the town.

It is officially announced that an explosion has occurred in the military munition depot at Winterbourne, 11 miles from Vienna. The statement says that three of the depots have been destroyed, and that 100 persons are reported to have been injured.

**NOTES BOOBY**  
IF YOU EVER FAT TOO MUCH DUCK AN' GET THE STUMICK ACHE Y'BETTER CONSULT A QUACK DOCTOR.

## SEEDS OF SUSPICION

Children Learn To Suspect Too Early—Result Is Deceit

Suspiciousness, although not necessary as an inherent quality, is one which from earliest years is apt to be absorbed from petty scenes and the ordinary carnal world withers with the child. We do not know how much of the natural susceptibility of childhood nothing is more permanent in its life force, and to live in its atmosphere is to be inured to the world of deceit. To a child who has been brought up and simply reared the trust time instilled in him both robust character and effects it and teaches the only true philosophy by which to judge all things, and just as trust educates so, so also does suspicion degenerate.

A man is known by the company he keeps; this is an infallible test for his thoughts and emotions and loves and thus revealed—the greater part of his mind is in his company, and so, if through suspiciousness, he is not to be trusted, he is not to be trusted. He is not to be trusted, how can he be under their their training a relief for deceit in later years?

## Grape Blanc Mangle

Grape juice blanc mangle is made easy to use. Add a few handfuls of granulated sugar added to a few corn stalks and a little cold water, and you have a delicious drink. It is a good juice. Boil for four minutes and pour into small molds or dessert dishes. Serve with whipped cream and a dusting of lemon peel or orange peel has been suggested.

## To Remove Blisters

Wash the articles in lukewarm water, and after allowing the fabric to soak a while, wash with naphtha. The naphtha will remove the stain and the fabric will have disappeared.

The man who marries a widow seldom has any money. But there are times when he regrets his decision.

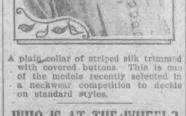

## WHY WOMEN DON'T STAMMER

Have you ever met a woman who stammers? If you have you are a man in a world of stammering. It is extremely rare among the fair sex. It is only among men that it is so common. It is only among men that it is so common. It is only among men that it is so common.

Of course, there are those of stammering who never learn to speak. But wherever men are tried. But wherever men are tried. But wherever men are tried.

## A Standard Collar

United organized effort would work wonders. It would prevent duplication and waste. It would prevent duplication and waste. It would prevent duplication and waste.

## WHO IS AT THE WHEEL?

Nearly Everyone in Business and Society Seeks a Leader

Ada Patterson writes: "I've seen that car shift. That afraid of a shifting car, isn't it?"

"It depends on who is at the wheel." This is a new political organization. It is founded on common sense. It is founded on common sense. It is founded on common sense.

## Hinge Per Light Box

Hinges to be fixed into place with screws are often unsatisfactory for the reason that they are not shown in the sketch was designed for use in such cases, and is inexpensive and can be quickly applied. No screws are required and the leaves of the hinge are performed with triangular holes. The portions cut out, as a rule, are best left in the wood. They are set so that the three leaves fall tight to each other, making a secure fastening.

## When Wind Shield Rattles

On many kinds of automobiles the windshield is held in place by steel arms which protrude through the door being fastened on the under side by nut and lock nut. Other types are held in place by vibration, with the result that the windshield rattles and moves slightly. The first evidence of rattling is in cracked glass in the windshield supports.

## Let Her For the Hands

Here is a good treatment: Rosewater, diluted with glycerine, one ounce carbolic acid, ten drops. Always apply to the hands from tips of fingers downward to the elbows. Another good thing to do after washing the hands is to apply this lotion. It will soon show a marked change in the skin.

## Bardine and Speech

Boil two quarts of spinach, strain and chop. Mix with a beaten egg, and pour into a mold. Bake for ten minutes. Serve with a tomato sauce.

## Canada Builds Wooden Ships

The wooden shipbuilding industry, which was revived at the outbreak of the war, is now being revived at the outbreak of the war. The industry is now being revived at the outbreak of the war.

We believe that any man who is a woman's friend is a kind of a good and noble character.

## UNION TO SAVE CANADA

View of Western Church and Social Service Leader

If organized effort is needed in the country, it is needed in the city. It is needed in the city. It is needed in the city. It is needed in the city.

United organized effort would work wonders. It would prevent duplication and waste. It would prevent duplication and waste. It would prevent duplication and waste.

The various denominations may have been admirably fitted to meet the needs of the countries which gave birth to them, but they are not fitted to meet the needs of the country of Canada today. The C. P. Church Union movement is at bottom a reaching out toward an organization that will save Canada.

## WHY FARMING ESSENTIAL

Despite its Poor Profits This Industry Attracts National Life

W. G. Good, B.A., of Paris, Ontario, addressed the Empire Club of Toronto to a practical farmer and also a student of the economic problems underlying agriculture in Canada. He pointed out that agriculture was not merely an occupation which some individuals follow for gain, but a great national interest, determining a dominant way the fortunes of the nation and the opportunities of the character of our population; hence the importance of agriculture as the basis of the nation's life, and the importance of agriculture as the basis of the nation's life.

## Hinge Per Light Box

## British Steamer Gets Another Sub

Officers of a British steamer which arrived at Atlantic port this week reported having sunk an attacking German submarine. The British vessel sent a shell into the U-boat's magazine, causing an explosion which killed the submarine's crew and sank the ship. Each end sank separately. The submarine was five miles distant and running away after having attacked the Britisher, nearly 400 miles off the coast of Ireland.

Unable on account of age to offer personal services, Major Napier, of the Imperial army, some time ago, forwarded this to his majesty the king, \$50,000 to be used for whatever purpose his majesty might deem most suitable.

## ITEMS OF LOCAL INTEREST

Blundell's have put in a fine line of blank books for office use.

Since the rain last week the grader has been dragged over the streets with good results.

Apples, Oranges, Lemons, Cherries, Plums, at Broadway Department Store.

Great preparations are being made for the stampede in Medicine Hat July 10th to 13th.

It will be good news to a number of people in town to know that the pet coyote mysteriously disappeared one night last week.

The town tax sale has been postponed from July 27th to August 17th. The list of lands to be put up for auction will appear in our next issue.

The name was left out W. H. Todd's ad in our paper last week but Frank Meeker says it didn't matter as everyone knows the store that thrives of five plunks on every suit.

As Monday next will be observed as Dominion Day all over Canada all the stores in town and other places of business will be closed for the day. Everybody is going to the picnic at Box Springs. Do your shopping Saturday.

H. L. Wonnemaker received word from his brother John, who was reported wounded last month. He was wounded at Vimy Ridge and at the time of writing said he was rapidly improving and expected to be back in the trenches soon.

Another evidence of Alberta's growth may be gleaned from the fact that forty new elevators are being built throughout the province this summer. Farmers around here say there should be forty-one and that the extra one should be located in Redcliff.

Word has been received from Rev. G. Lawson Gordon stating that he and Mrs. Gordon will not be home for next Sunday but will return some day next week. Mr. Chadwick will take the service in the Presbyterian church as usual next Sunday. Mr. and Mrs. Gordon are enjoying good health and are spending a pleasant visit with friends in their old home in Nova Scotia.

Mrs. Gestré and Mrs. Nesbitt spent last Sunday in town visiting friends.

Mrs. Adam Dubois, who has been confined to her bed for the past two weeks, is now sufficiently recovered to be around again.

School closes for the summer holidays Friday night. On Friday afternoon the different rooms will have the usual closing exercises to which all parents are invited.

The 1917 Redcliff directory for Redcliff has been published and subscribers have received their copies. The directory contains valuable information as to people, streets and industries.

Clarence Lissner, who is employed at the Glass plant, received the sad news on Sunday of the sudden death of his father in Marion, Indiana. He left on Monday morning's train for his home.

Don't forget the concert in the Amusee theatre tonight (Thursday) under the auspices of the War Veterans Association. The program will be put on by Medicine Hat talent. Admission 25c; children 15c.

Owing to the rapidly increasing business at this point the C. P. R. has found it necessary to increase the siding capacity around the station. An engineer with a gang of men are laying out the ground for an additional five hundred yards of siding which will be laid at once.

The Ladies Aid of the Presbyterian church will meet in the church next Thursday afternoon. As business of importance will come before the meeting a full attendance is requested.

The Ladies Aid of the Baptist church will hold a sale of work in the Park library on Saturday afternoon. Refreshments will be served from 3 to 4.

It is now beginning to look as though the weather man is going to allow us to reclaim our old title "Hunny Southern Alberta." For the last few days we have been having excellent growing weather.

Up to Brooks the treasurer of the baseball club was arrested for being short in his cash. In these days of frenzied financing everybody is watched very closely.

The management of the Amusee theatre intend making a special feature of the Wednesday evening performance every week in future. Arrangements have been made for the very best films on the road for that night.

The many friends of Mrs. T. Bowtell here will be sorry to learn that she has been having a lot of trouble since going to Lethbridge to visit her sister. Her daughter, Dorris, is just recovering from a severe attack of measles and mother and son, Eric, is confined to his bed with a rheumatic fever. Although suffering considerably his illness is not serious. Mr. Bowtell is at present in the trenches in France.

It is becoming more and more evident that Lethbridge is greatly envied by the ever-increasing number of the tightening of the blockade by the United States.

Mrs. T. Bowtell, of this town, but now visiting in Lethbridge, writes to state that her brother-in-law, Private R. Laddin, who was wounded at home, died suddenly in Lethbridge last week from cancer. Laddin was on the police force at Bow Island prior to enlisting. He was well known here and he visited Mr. Bowtell on several occasions.

A new edition of the Southern Alberta home-made map is a most useful publication, both from the standpoint of the settler and the business man. It has just been issued by the Natural Resources Intelligence branch of the Department of Interior. Application to the superintendent of the Natural Resources Intelligence branch of the Department of the Interior, Ottawa, will secure a copy free of charge.

## BIRTHS.

DORSON—In Redcliff, on Monday, June 26th, 1917, to Mr. and Mrs. J. J. Dobson, a daughter.
